Description - MKT	Comfort and versatility. Eliminate the damp feeling in your bed with Norway, the electric bed warmer suitable for any single bed. Switch it on 5 minutes before bedtime and it will quickly eliminate that uncomfortable cold feeling of winter nights. The Sensfort range distributes heat evenly and ultra fast, keeping the temperature constant. In many cases it avoids the need to use heating at night, making it one of the most economical, environmentally friendly and healthy options. In addition, its fabric is ultra-soft and fluffy, guaranteeing perfect rest. It offers 3 heat intensities, has electronic temperature control and an operating light. Remove the connector and machine wash it in

total safety, up to 30°C. Dimensions 150x80cm. For maximum safety, it has an automatic shut-off after 3 hours system and an anti-overheating system. Both systems will turn the product off to avoid possible damage and accidents to the product, in case of anomalies.

Bullet Point 1 (max. 650) - MKT

MAXIMUM COMFORT: ultra-soft, extra-comfortable fabric that eliminates the dampness in the bed. 3 heat settings available.

Bullet Point 2 (max. 650) - MKT

SENSFORT TECHNOLOGY: uniform and rapid heat distribution, maintaining a constant temperature for greater comfort during sleep.

Bullet Point 3 (max. 650) - MKT

EASY CLEANING: machine washable at up to 30°C. Simply detach the remote controls for safe machine washing.

Bullet Point 4 (max. 650) - MKT

MAXIMUM PROTECTION: automatic switch-off after 3 hours and anti-overheating system. Both systems turn off the device, preventing possible damage and accidents.

Bullet Point 5 (max. 650) - MKT

EXTRAS: electronic temperature control and led work light. Dimensions 150x80cm.
