### PRODUCT DESCRIPTION

E14 LED bulb of the LUMILED brand is a modern energy-saving light source for specialized applications, 10W with a cap ( thread) E14 so that replacing the bulb will not cause problems. A transparent bulb with visible LEDs emits a warm color of light 3000K , and its luminous flux is 970lm . Professional workmanship and the use of the latest solutions of LED diode technology, they provide LUMILED bulbs with very high efficiency and real color reproduction. The bulb can be used in any luminaire with a E14 as well as in specialist devices such as sewing machines, refrigerators or small designer fittings.

The high light beam angle 320° makes the illuminated place look great. The biggest advantage of LED bulbs is the reduced energy consumption which can be up to 90% smaller than traditional light sources. By deciding to buy the presented specialist bulb, we get a product of the highest quality, which thanks to careful workmanship and the use of the best materials will ensure us work for a very long time .
